

ARAVIND B

Senior Flutter Developer

+91 7907006203 | aravind.dev.co@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 6 years of experience designing and delivering scalable, high-performance cross-platform mobile applications across banking, CRM/ERP, and consumer domains. Proven track record leading critical user journeys within SBI YONO, one of India's largest banking applications, using Flutter, Dart, and state management frameworks including MobX, Provider, BLoC, Riverpod and GetX. Skilled in REST API integration, offline-first architecture (SQLite), performance optimization, and accessibility implementation. Experienced working in Agile teams, driving feature ownership from architecture through delivery, and collaborating cross-functionally on third-party integrations such as DigiLocker.

TECHNICAL SKILLS

Programming Languages: Dart, Python

Mobile Development: Flutter, Cross-platform Mobile App Development, Android, iOS

State Management: MobX, Provider, BLoC, GetX, Riverpod

Architecture & Design Patterns: MVVM, MVC, Clean Architecture, Offline-first Design

Backend & APIs: REST API Integration

Databases: SQLite, SQL

Cloud & Firebase: Firebase Authentication, Firestore, Supabase

DevOps & CI/CD: CI/CD, GitHub Actions

Testing & Code Quality: Unit Testing, Widget Testing, Code Reviews

Version Control: Git

Additional Skills: SwiftUI, SEO, WordPress

Methodologies: Agile / Scrum

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | Tata Consultancy Services (TCS), Hyderabad, India

May 2025 – Present

- Deliver critical modules for SBI YONO, one of India's largest banking mobile applications, contributing to a platform used by a large-scale user base
- Own end-to-end development of the Forex Card journey as technical lead, including architecture design, implementation, and performance optimization
- Develop key modules and manage API integrations for the GSA (Group Sampoorana Arogya) Purchase journey
- Integrate DigiLocker across multiple user journeys, enabling secure document access, consent management, and streamlined onboarding
- Improve application performance and reduce latency through optimized state management (MobX) and efficient API handling
- Implement accessibility best practices — including semantic widgets, screen reader support, focus management, and accessible UI components — improving usability for users with disabilities

Flutter Developer | SkyisLimit Technologies Pvt Ltd

September 2022 – April 2025

- Developed scalable CRM and ERP mobile applications supporting business operations and workflow automation
- Implemented Provider, BLoC, and GetX-based architectures to structure feature modules and maintain codebase scalability
- Built core features including attendance tracking, leave management, expense tracking, and order management
- Designed offline-first solutions using SQLite for reliable functionality in low-connectivity environments
- Improved app performance and responsiveness across a range of devices
- Applied Agile practices with unit and widget testing to maintain code quality and reliability

Flutter Developer | Pebery Technologies Pvt. Ltd

March 2021 – September 2022

- Built and delivered multiple cross-platform applications across matrimony and education domains
- Integrated Firebase Authentication and Firestore for real-time data synchronization
- Designed responsive UI/UX to ensure consistent experience across device sizes
- Implemented REST APIs for backend communication
- Debugged and resolved app performance issues to improve stability

Flutter Developer Intern | Pebery Technologies Pvt. Ltd

October 2020 – February 2021

- Built foundational skills in Flutter and Dart through hands-on application development
- Contributed to Firebase and API integration tasks under senior developer guidance
- Participated in Agile ceremonies and code reviews

KEY PROJECTS

SBI YONO — Banking Application

Role: Senior Flutter Developer | Technologies: Flutter, Dart, MobX

- Developed and maintained core modules using Flutter and MobX state management
- Led the Forex journey end-to-end, overseeing feature implementation and performance optimization
- Contributed as a key team member to the GSA (Group Sampoorna Arogya) Purchase journey development

CSB Salesfokuz — Banking Sales CRM

Technologies: Flutter, Provider, MVVM, SQL, REST APIs

- Built a sales management application for CSB Bank using Flutter with MVVM and Provider architecture
- Secured data with SQL and integrated REST APIs for cross-platform synchronization
- Added CRM customization for banking workflows, with automated unit and widget testing

Factfokuz, Tallyfokuz, Vastra — CRM/ERP Suite

- Factfokuz: Employee management app with offline support (SQLite), location updates, and multi-language support
- Tallyfokuz: Order management application with an integrated pricing engine
- Vastra: Barcode-based inventory management system

Dataguru, Dallaal, Nrithya — Consumer Applications

- Dataguru: Multi-role education app with attendance tracking and notifications
- Dallaal: Matrimony application with chat and matching functionality
- Nrithya: Learning platform with video content and quizzes

EDUCATION

Bachelor of Science in Electronics

Mahatma Gandhi University, Kottayam, Kerala | June 2015 – May 2018

Diploma in Computer Application

Xeon Computers, Kottayam | April 2013 – December 2013

Higher Secondary Education (Science)

Technical Higher Secondary School, Puthuppally, Kottayam | April 2013 – March 2015

ADDITIONAL INFORMATION

- Participated in TCS AI Hackathon (AI Friday Season 2) as part of the SBI YONO 2.0 team
- Developed an AI-powered chatbot using Python and Gemini LLM, applying Retrieval-Augmented Generation (RAG) to reduce hallucinations and improve response accuracy
- Implemented data-masking safeguards for sensitive user information (personal and password data) within the chatbot solution
